--	---

Description

The club is polished smooth and painted light brown. It consists of a handle and decorated top. The side edges diverge towards the center, i.e. towards the end of the handle. Light center edges stand out. On the decorated second part, the side edges diverge widely, especially in the uppermost third. The same applies to the middle edges, so that the leg becomes wider towards the top. Deep incision in the center at the upper end. Two outward pointing serrations emerge. Inscription on handle: OLE CUTU OTE TANIFA
